Reduced Tuition

Temple HBT welcomes everyone; we do not want financial constraints to prevent you from participating fully in our school. Because we believe that it is our responsibility to support and educate all members of the community, no child will be turned away from Chaverim because of an inability to pay.

At the same time, our operating expenses are significant, and we ask you to pay an amount consistent with your family's financial capacity to help sustain our community, purchase classroom materials, and fairly compensate our teachers and staff.

Please determine what you can contribute and indicate that amount in registration. The amount each family contributes is treated as confidential. For those paying in installments, amounts can be adjusted up or down if your family's financial circumstances change. Please work directly with Accounts Manager Laurie Spackman (contact info above) for any adjustments needed.
